Announcement on Mid-term Dividend and Revising Dividend Forecast

Hikari Tsushin, Inc. announced it had resolved at a board meeting held today to pay an interim dividend with September 30, 2011 as the record date. The Company also announced that it had revised its year-end dividend forecast for the fiscal year ending March 31, 2011. The previous forecast was announced on May 17, 2011.

1. Reasons for increasing the mid-term dividend and revising the annual dividend forecast:

The Company's one of the most important policy is return to shareholders to maintain stable, continuous dividend payments. The Company planned to pay a year-end dividend of 60.00 yen per share for the current fiscal year. Considering financial conditions and the importance of returning profits to shareholders, however, the Company has revised dividend forecast upward.

2. Table showing the changes:

	Mid-term dividend per share	Term-end dividend per share	Annual dividend per share
Previous forecast (announced as of May 17,2011)	¥0.00	¥60.00	¥60.00
Changes made this time	¥30.00	¥40.00	¥70.00
(Reference) Dividends paid in previous year	¥0.00	¥60.00	¥60.00
